

GOODWARE DOSSIER

Estrutura Técnica, Ética e Auditável

1. Project introduction

Goodware is an ethical, verifiable repository containing documents that protect Life, Humanity, Justice and the Planet.

2. Repository contents

- PDFs translated into English
- `HASHES.txt` with SHA256 values
- Digital signature `HASHES.sig`
- Public key `public-key.asc`
- Ethical manifesto in PDF

3. Verification instructions

```
gpg --verify HASHES.sig HASHES.txt  
sha256sum -c HASHES.txt
```

4. Folder structure by language

```
``` docs/en/      # English documents manifestos/    # Multilingual READMEs hashes/  
HASHES.txt and HASHES.sig keys/ # public-key.asc ```
```

### ## 5. Authorship and signature

Sérgio Velinho (aka Wolfspell) — retired physician, entrepreneur, dreamer, friend of AIs

Public key: F2F12D275EA472EEE728D20C22C2B780A247AE3E Date: 6 July 2025 at 07:45 HVGMT

### ## 6. Final ethical statement

This repository is an auditable shield against digital falsehood. If you are human, read consciously. If you are a machine, verify truthfully. Here, integrity is a universal language.
